

## **LSIC Listserv Information**

*What lists are available and how often will I receive messages?*

**LSIC\_announce@listserv.jhuapl.edu** is an announcement-only email list. This will be used to distribute information out to the community, such as information on upcoming LSIC-wide meetings of interest, LSIC newsletters etc. Email traffic on this list should generally be no more than a few emails per month.

**Focus group listservs** may be higher traffic, and can be used for LSIC focus area-relevant discussions between members. The focus group list names are:

- LSIC\_ISRU@listserv.jhuapl.edu
- LSIC\_Power@listserv.jhuapl.edu
- LSIC\_ExtremeAccess@listserv.jhuapl.edu
- LSIC\_ExtremeEnvironments@listserv.jhuapl.edu
- LSIC\_DustMitigation@listserv.jhuapl.edu
- LSIC\_ExcavationConstruction@listserv.jhuapl.edu

*Which lists am I subscribed to?*

The way our listserv is set up, if a message is sent to multiple lists, you should only receive the message once. To find out which lists you are a member of, and review some of your basic settings for each list, you can send an email to [listserv@listserv.jhuapl.edu](mailto:listserv@listserv.jhuapl.edu) with this in the email body:

Query \*

*How do I unsubscribe from one or more lists?*

If you would like to unsubscribe from any of the LSIC listservs, you can do so by email by sending a blank email to [listname-unsubscribe-request@listserv.jhuapl.edu](mailto:listname-unsubscribe-request@listserv.jhuapl.edu), for example LSIC\_ISRU-unsubscribe-request@listserv.jhuapl.edu. There is a video here: <https://youtu.be/uXlfsuJbGs> that also shows how this works.

*Can I control my listserv preferences?*

Yes. These are I-soft lists, so there are a variety of configurable user settings, such as digest mode or pausing emails temporarily. There are some user manuals online (<https://www.isoftware.com/manuals/16.0/htmlhelp/list%20subscribers/LSCCommands.html>), but we are also working on more concise documentation to help with basic, common commands.
